**FOOTNOTES FOR LOADER MOUNTING KITS****2045, 3045, 3545, 4045, 5045, 6045, 1847, 2247, 2347, 2427, 2447, 2847, 3227**

- A** Will not fit tractors with hydrostatic transmission.
- B** FWA models must have turf tires.
- C** Must mount front wheels on FWA models in narrow position.
- D** Fits tractors with mid-mount mowers.
- E** Tractors must be equipped with John Deere dual selective control valve. This will eliminate the need for a Bush Hog valve and hose kit, hydraulic adapter kit, or power beyond kit.
- F** Front wheels must be moved in, to allow steering rod to clear subframe.
- G** Fits tractors with manual transmission and a mid-mount mower.
- H** Will not fit tractors with power steering.
- I** Fits tractors with hydrostatic transmission and a mid-mount mower.
- J** Cab steps will have to be slightly modified.
- K** On some of the Ford 4600 tractors the steering rod hits the rear bracket. On these models the steering rod will have to be bent or the bracket will have to be notched.
- L** Will not fit cab models.
- M** Will not fit with external power steering.
- N** Requires modification on tractors with power steering.
- O** Will fit factory cab models and non-cab models.
- P** Has not been verified to fit cab units.
- Q** Contact the order entry department for availability.
- R** Front wheels must be adjusted out to clear loader.
- S** Front wheels must be moved out one adjustment to keep tire from hitting rails.
- T** Long wheel base only - 56".
- U** Will not fit tractors made prior to 1988.
- V** Does not fit tractor without mounting holes on the side of the transmission bell housing (4 hole pattern).
- W** This kit will **NOT** fit cab models manufactured after 1984.
- X** Front wheels must be moved out until steering arm clears loader cylinder.
- Y** This kit **ONLY** fits cab models manufactured after 1984.
- Z** All models must be equipped with John Deere side plates.
- AA** Front wheels must be adjusted out to clear brackets.
- AB** The 3226 QT loader will not mount on these tractors if they are equipped with an auxiliary side mount fuel tank.
- AC** Will not fit cabs equipped with air conditioning.
- AD** Models with vertical exhaust must be converted to horizontal position with John Deere horizontal exhaust kit #M92715. bracket to do this.
- AK** Left hand rear bracket must be modified.
- AL** Brackets must be modified to fit cab models.
- AM** Front wheels must be in long wheelbase position.
- AN** Fits tractors made after 1975 only.
- AO** Fits row crop and utility models.
- AP** Fits tractors made after 1964.
- AQ** IMT 577 requires muffler relocation kit #25H43160.
- AR** Fits tractors made after 1965.
- AS** The standard muffler on these tractors will interfere with loader. The purchaser will have modified.
- AX** Tractors with power steering mounts attaching to the transmission bell housing must be modified.
- AY** Some M.F. 245 tractors are longer than others. These tractors have a non-adjustable front axle and dual power steering cylinders. Loader will not fit these tractors.
- AZ** The front bracket must be slightly modified to fit this tractor.

**FOOTNOTES FOR LOADER MOUNTING KITS****2045, 3045, 3545, 4045, 5045, 6045, 1847, 2247, 2347, 2427, 2447, 2847, 3227**

- BA** This kit requires remote valve, hose and stand kit number 24H49878. This kit contains everything necessary to attach loader hydraulics to the tractor assembly.
- BB** Fits tractors with synchro shuttle transmissions.
- BC** Fits tractors with manual and hydrostatic transmissions without "mounted" mowers.
- BD** Will not fit tractors with "swept back" front axle.
- BE** Fits tractor with 3 cylinder engines only.
- BF** Fits factory cab models only.
- BH** Fits tractors without power steering only.
- BI** Front axle must be mounted in short wheelbase position.
- BJ** Will not fit FWA models with 14.9-24 and larger AG front tires.
- BK** Will not fit FWA models with Ag front tires larger than 14.9-24.
- BL** Fits tractors with power steering only.
- BM** Will not fit Ford 2000 made before 1965.
- BN** Must mount front wheels in wide position on front wheel drive models with tires larger than 12.4-24.
- BO** Power beyond must be used when not attaching loader valve to tractor remote outlets at rear of tractor. If tractor requires a hydraulic block, it must be ordered from tractor manufacturer. Dealer will be responsible for fittings and hoses from tractor to loader.
- BP** This tractor has a low hydraulic flow rate which will cause loader to operate slower than specified.
- BQ** Hydraulic hoses and fittings to attach loader to tractor quick couplers are included in this kit. Dealer must provide male quick coupler tips and fittings to connect coupler tips to hose ends.
- BR** When mounting on tractors with power steering, you must consult Belarus Service Dept. for tractor relief setting and hydraulic filter information.
- BS** This kit will fit models with short wheel base only.
- BT** Will not fit FWA models with Ag front tires larger than 9.5-24.
- BU** Will not fit tractors with power assist power steering. Tractors must have hydrostatic power steering.
- BV** Fits tractors with power assist power steering.
- BW** Will not fit tractors with front tires larger than 6-14.
- BX** Will not fit FWA models with Ag front tires larger than 7-14.
- BY** Will not fit tractors made prior to 1990.
- BZ** Will not fit tractors with Ag front tires larger than 11.2-24.
- CA** Vertical muffler must be relocated.
- CB** Will not fit FWA models with Ag front tires larger than 13.6-24.
- CC** Front signal lights on cab models will have to be moved up when mounting loader with mechanical self-leveling option.
- CD** Will not fit tractors with steering tie rod located in front of front axle.
- CE** Will not fit tractors with manual transmission.
- CF** Brackets must be modified per instruction sheet when mounting on tractors with hydrostatic transmission.
- CG** Will not fit tractors with Ag front tires larger than 12.4-24.
- CH** Tractors with power steering must be equipped with John Deere dual selective control valve. This will eliminate the need of a Bush Hog valve and stand with handle control kit, hydraulic adapter kit, and power beyond kit. Dealer will need to order hoses.
- CI** Will not fit tractors requiring bracket kits #24H42708, 24H43068, 24H43686, 24H44122, 24H44644 and 24H46291.
- CJ** Only fits tractors that require bracket kits #24H43686, 24H44122, 24H44644 and 24H46291.
- CK** Will not fit tractors requiring bracket kits #24H43533, 24H43845, 24H44199, 24H44552, 24H45433, 24H45614, 24H45653, 24H45847, 24H47648, 24H51044.
- CL** Only fits tractors requiring bracket kits #24H43533, 24H4845, 24H44199, 24H44552, 24H45433, 24H45614, 24H45653 or 24H45847, 24H47648.
- CM** Will not fit tractors requiring bracket kit #24H50482.
- CN** Front bracket must be modified when mounting on tractors with add-on power steering.
- CO** Will not fit MF150 high clearance models.
- CP** When mounting on this tractor the loader's front spacer blocks the tractor headlights.
- CQ** Will not fit tractors with 10-16.5 industrial front tires.
- CR** Will not fit FWA models with R4 industrial tires larger than 25 x 8.50-14.
- CS** Tractor foot throttle linkage must be adjusted if the foot pedal interferes with rear bracket.
- CT** Headlights must be relocated when mounting this tractor.
- CU** Will not fit models prior to series III.
- CV** Accessing the battery with loader mounted requires removal of loader and adjusting rear cross tube which is shown on the bracket kit instruction sheet. Contact your Bush Hog representative for instruction sheet 25H43086
- CW** Must mount this kit on 2 wd tractors with serial number below C49189. (Agco change notice February 1995.)
- CX** Must mount this kit on FWA tractors with serial number below C45009. (Agco change notice February 1995.)
- CY** Must mount this kit on FWA non-cab tractors with serial number below C47328. (Agco change notice February 1995.)
- CZ** Will not fit FWA models with Ag front tires larger than 7-16.

**FOOTNOTES FOR LOADER MOUNTING KITS****2045, 3045, 3545, 4045, 5045, 6045, 1847, 2247, 2347, 2427, 2447, 2847, 3227**

- DA** Will not fit FWA models with Ag front tires larger than 8-18.
- DB** Use this kit when controlling a hydraulic attachment with the Bush Hog loader remote valve.
- DC** Hoses to attach hydraulic attachment to tractor rear hydraulic remotes when using tractor hydraulic controls.
- DD** If tractor is equipped with a Ford remote valve and front mounted remotes, metal lines from hydraulic outlet block to remote valve must be replaced with flexible hydraulic lines in order to clear right rear bracket. Dealer to supply these hoses
- DE** Must mount this kit on FWA cab models with serial number below C47419. (Agco change notice February 1995.)
- DF** Must mount this kit on FWA non-cab models with serial number below C47022. (Agco change notice February 1995.)
- DG** When mounting on 3340 FWA with new style front axle the front wheels must be adjusted to keep front tire from interfering with the loader. Also the power steering hydraulic lines must be modified to clear side brackets.
- DH** Handles on side of hood must be modified to clear inside of subframe arms. Service access doors must be removed prior to mounting loader.
- DI** Grill guard kit is included in this mounting kit.
- DJ** A special hydraulic fitting must be purchased from Kubota to complete this hydraulic kit. Kubota Part #70010-00306.
- DK** Turn signal lights must be relocated on cab models
- DL** Must mount front wheels in widest position on FWA models.
- DM** Models with front tires larger than 5.00-15 must be adjusted out to clear front spacer weldment.
- DN** On FWA models with front tires larger than 320/75R24 the turning radius must be adjusted to prevent tire interference with the loader's front spacer.
- DO** Turn signal lights must be relocated.
- EA** Loader valve **must** be attached to the tractor rear remotes on tractors with "pressure flow compensating" (PFC) or "load sensing" hydraulic systems.
- EB** Must be equipped with an original CNH rear bracket kit #716454036 (#87436769) for 4-cylinder models or part #715687036 (#87436770) for 6-cylinder models to complete loader installation.
- EC** This kit will fit 820 and 830 models with 3 cylinder engines only.
- ED** Must mount this kit on 2 wd tractors with serial number C49189 and above. (Agco change notice February 1995.)
- EE** Must mount this kit on FWA tractors with serial number C45009 and above. (Agco change notice February 1995.)
- EF** Must mount this kit on FWA, non-cab tractors with serial number C47328 and above. (Agco change notice February 1995.)
- EG** Headlights must be removed or relocated on models with side mounted headlights.
- EH** Must mount this kit on FWA, non-cab models with serial number C47022 and above. (Agco change notice February 1995.)
- EI** Must mount this kit on FWA, cab models with serial number C47419 and above. (Agco change notice February 1995.)
- EJ** Hydraulic couplers must be relocated towards the center of the tractor to avoid interference with the loader subframe.
- EK** Exhaust pipe may have to be modified to avoid interference with the subframe arms when mounting or dismounting the loader.
- EL** Will not fit FWA models with industrial tires larger than 10-16.5.
- DP** Will not fit tractors with mid-mounted mowers.
- DQ** To operate this attachment with the Bush Hog control valve, a selector valve control kit must be ordered. To operate this attachment with the tractor controls, a hose bundle must be ordered. Both items are listed under options
- DR** Some FWA models have a deep driveline shield that interferes with the rear crosstube. This shield must be modified to allow the crosstube to bolt up to the brackets.
- DS** This mounting kit offsets the loader to the left, to allow clearance between the subframe arm and the exhaust muffler when mounting or dismounting the loader.
- DT** The power steering cylinder on the left side must be disconnected at the rear before mounting the left hand bracket. The cylinder can be reattached through the hole provided in the left hand bracket.
- DU** Tool box must be relocated.
- DV** Exhaust pipe support bracket must be removed to mount R.H. bracket (24H48358). Support may be reattached on the outside of R.H. bracket. Dealer must modify holes below the exhaust pipe.
- DW** The loader mount cuff on the L.H. side may interfere with the fuel cap. Remove enough material from the cuff to allow for fueling.
- DX** The loader will not mount on this tractor if the tractor does not have holes in the side of the transmission behind the bell housing of a tractor having an open center hydraulic
- DY** When attaching a loader valve to the rear remotes of the tractor, a power beyond kit is not required. A power beyond kit **must** be used when attaching a loader valve to a hydraulic source other than to the rear remotes system.
- DZ** A power beyond kit is **not** required on tractors with a closed center hydraulic system. The loader valve may be attached to the tractor at the rear remotes or at another hydraulic source recommended by the tractor manufacturer.
- EM** The front tires may have to be removed to allow adequate space to mount the rear bracket weldment on models with hydrostatic transmission.
- EN** Will not fit tractors with bi-speed turn option.
- EO** Turning radius of front tires may have to be adjusted on FWA models with new front axle to clear subframe and side brackets.
- EP** Power steering lines may have to be modified to clear the side brackets on FWA models with new front axle.
- EQ** Will not fit models with the optional supersteer FWA axle.
- ER** Will not fit models with the wide outside brake pedal originally offered by New Holland.
- ES** Will not fit models with add-on power steering.
- ET** This kit fits models with **standard** hoodline only.
- EU** This kit fits models with **high-visibility** hoodline only.
- EV** If tractor is equipped with horizontal exhaust, this kit will not fit unless the exhaust is modified.
- EW** This kit must be ordered in conjunction with cable control kits 24H49868, 24H49869 and 24H50602 when field converting a single or dual handle valve to a cable control valve.
- EX** This kit mounts gear drive and hydrostatic drive models.
- EY** This kit fits models with the optional supersteer FWA axle only.
- EZ** Fits non-cab models only.

**FOOTNOTES FOR LOADER MOUNTING KITS****2045, 3045, 3545, 4045, 5045, 6045, 1847, 2247, 2347, 2427, 2447, 2847, 3227**

- FA** Front tire (center to center) tread width must be set at a maximum of 67 inches on FWA models.
- FB** This kit will **not** fit **low-profile** platform models.
- FC** Will not fit models with dual fuel tanks.
- FD** This kit must be used to mount a 3860 QT with a standard subframe only.
- FE** This kit must be used to mount a 3860 QT with a long subframe only.
- FF** This kit must be used to mount a 3860 QT with a special subframe only.
- FG** Will not fit FWA models with Ag front tires larger than 14.9-28.
- FH** Will not fit FWA models with Ag front tires larger than 14.9-30.
- FI** Will not fit FWA models with Ag front tires larger than 16.9-28.
- FJ** Will not fit FWA models with Ag front tires larger than 16.9-30.
- FK** Front tire (center to center) tread width must be set at a minimum of 72 inches on FWA models.
- FL** Front tire (center to center) tread width must be set at a minimum of 64 inches on FWA models.
- FM** Front tire (center to center) tread width must be set at a minimum of 68 inches on FWA models.
- FN** Front tire (center to center) tread width must be set at a minimum of 74 inches on FWA models.
- FO** Front tire (center to center) tread width must be set at a minimum of 84 inches on FWA models.
- FP** Rear tire clearance (inside to inside) must be set at a minimum of 46 inches.
- FQ** Front tire clearance (inside to inside) must be set at a maximum of 51 inches.
- FR** Rear tire (center to center) tread width must be set at a minimum of 69 inches.
- FS** Oscillation stops provided in the mounting kit are required.
- FT** Exhaust relocater kit (part # 50021076) must be ordered to mount loader.
- FU** Steering stops may have to be adjusted.
- FV** Mounting kit includes rear axle braces.
- FW** The loader must be dismantled to service tractor.
- FX** Requires spacer kit (part # 50021077) to mount John Deere 4840 tractors.
- FY** You must order a commercial grade bucket to achieve the specified digging depth when mounting this tractor.
- FZ** On FWA models with 14.9-30 front tires, the tread width (center to center) must be set at maximum 84 inches. On FWA models with 16.9 x 30 front tires, the tread width (center to
- GA** Must mount this kit on tractors with serial
- GB** Must mount this kit on tractors with serial numbers 682301R.
- GC** FWA models require 6° oscillation stops to clear loader.
- GD** A power beyond kit (part # 50020401) must be ordered to connect the loader valve to the tractor hydraulic system
- GE** The loader must be dismantled to remove the R.H. and L.H. side panels.
- GF** Hydraulic valve packages F82681, F82788, 50051682 and 50051713 cannot be used on tractors equipped with a R.H. auxiliary fuel tank.
- GG** This kit will not mount on FWA models with a side front driveline.
- GH** If tractor is equipped with a ground speed sensor, the sensor must be relocated prior to installation of the mounting kit.
- GI** Front tire (center to center) tread width must be set at a minimum of 66 inches on FWA models.
- GJ** Verify if the tractor is equipped with an open or closed hydraulic system prior to ordering a valve selection.
- GK** Front tire (center to center) tread width must be set at a minimum of 56 inches.
- GL** Hydraulic lines on L.H. side must be repositioned to mount side brace.
- GM** Front tire (center to center) tread width must be set at a minimum of 62 inches of FWA models.
- GN** Grill guard kit not available with this mounting kit.
- GO** This kit will not fit MF240 FWA or MF253 FWA tractors with horizontal exhaust.
- GP** Kit will not mount on row crop models.
- GQ** Will not fit models with serial number below D20201.
- GR** This kit will not fit orchard models.
- GS** Will not fit models with optional front axle/wheelbase extension kit.
- GT** This hydraulic adapter kit fits non-cab models only and will not work in conjunction with the cable control valve option.
- GU** Front tire (center to center) tread width must be set at a maximum of 60 inches.
- GV** This kit will only fit 2120 models with a serial number UV32236 and above.
- GW** This kit will only fit 2120 models with a serial number below UV32236.
- GX** This kit will only fit tractors with serial number prior to 116200B.
- GY** Front tire (center to center) tread width must be set at a minimum of 60 inches.
- GZ** A hose kit or a cable control kit must be ordered if the tractor is equipped with a safety rail. A single or dual handle valve kit will not mount on these tractors.

**FOOTNOTES FOR LOADER MOUNTING KITS****2045, 3045, 3545, 4045, 5045, 6045, 1847, 2247, 2347, 2427, 2447, 2847, 3227**

- HA** This kit will only fit tractors with serial number 116200B and above.
- HB** This kit fits models with both standard and high-visibility hood lines.
- HC** A cable control kit or hose kit must be ordered for non-cab models equipped with a safety rail.
- HD** Will not fit FWA models with Ag front tires larger than 5-14
- HE** Will not fit FWA models with Ag front tires larger than 11-20.
- HF** Serial number prior to 1700 on Zetor 4321, 4341 tractors and serial number prior to 2200 on Zetor 6321, 6341, 7321, 7341 tractors must have battery relocated to front of tractor.  
Purchase battery relocation kit from your Zetor dealer. Serial number 1700
- HG** This kit will not fit the "avenger" T-390 models.
- HH** Will not fit FWA models with Ag front tires larger than 8.3-16.
- HI** Front weight bracket must remain on the tractor when mounting this loader.
- HJ** Front tire (center to center) tread width must be set at a maximum of 56 inches.
- HK** Will not fit FWA models with Ag front tires larger than 9.5-22.
- HL** Will not fit FWA models with Ag front tires larger than 10.5/80-18.
- IA** Fits models with standard FWA axle only.
- IB** Fits models with terraglide FWA axle only.
- IC** Will not fit FWA models with implement tires larger than 12.5/80-18.
- ID** This kit will fit models with factory joystick control. Hydraulic hoses and fittings are included in the kit to attach to the tractor's quick couplers. Dealer must provide male quick coupler tips.
- IE** Front tire (center to center) tread width must be set at a maximum of 57.5 inches on FWA models.
- IF** Front tire (center to center) tread width must be set at a maximum of 59.8 inches on FWA models.
- IG** Will not fit models with optional 2-stage clutch.
- IH** Will not fit models with industrial tires larger than 12-16.5.
- II** Front bracket spacer kit #50102400 is required on 2wd models.
- IJ** Will not fit FWA models with Ag front tires larger than 9.5-16.
- IK** Will not fit FWA models with Ag front tires larger than 13.6-28.
- IL** This kit fits 2001 and newer models only.
- IM** McCormick MTX155 & MTX175 tractors require installation of 235327A2 (front support) if tractor is not equipped. Purchase from McCormick dealer.
- HM** Will not fit FWA models with Ag front tires larger than 9.5-20.
- HN** This kit only fits models with serial # beginning with prefix "E" (1996) and after.
- HO** This will not fit models with industrial front tires.
- HP** Will not fit FWA models with turf front tires larger than 212/80D 15.
- HQ** Will not fit FWA models with R4 industrial tires larger than 25 x 8.50-15.
- HR** This kit will not fit tractors with power assist/drag link type steering.
- HS** This kit will not fit models equipped with the factory joystick and remote valve package.
- HT** This kit fits models with Serial # beginning with J (2001) and after.
- HU** Rear tires must be dishd to a wide tread setting to clear brackets.
- HV** Will not fit FWA models with industrial front tires larger than 12.5/80-18.
- HW** Will not fit FWA models with industrial front tires larger than 14-17.5.
- HX** Vertical exhaust must be relocated. Use relocater included in the mounting kit.
- HY** This kit fits 1320, 1520, 1620 and 1715 models with model 914 mid-mount mower.
- HZ** This kit will not fit models with 914A mid-mount mower.
- IN** This kit will not work on models with optional fuel tank rock guard.
- IO** Front tire (center to center) tread width must be set at a minimum of 58 inches on FWA model.
- IP** Heat shield on vertical exhaust must be removed.
- IQ** This kit fits short wheelbase models only.
- IR** This kit fits models with or without 914 mid-mount mowers.
- IS** This kit fits TC18 models below serial #UD33666.
- IT** This kit fits TC21 models below serial #UF33357.
- IU** This kit fits TC18 models above serial #JD33665.
- IV** This kit fits TC21 models above serial #JF33356.
- IW** This kit will fit tractors with or without mid-mount mowers model #RCK60-24B.
- IX** This kit fits with or without mid-mount mowers model #RCK60-27B & #RCK72-27B.
- IY** This kit will fit tractors with mid-mount mowers model #914A.
- IZ** Front tire (center to center) tread width must be set at a minimum of 67 inches on FWA models.

**FOOTNOTES FOR LOADER MOUNTING KITS****2045, 3045, 3545, 4045, 5045, 6045, 1847, 2247, 2347, 2427, 2447, 2847, 3227**

- JA** Fits models with suspended FWA axle only.
- JB** This kit will not fit models with R4 industrial tires.
- JC** Will not fit FWA models with Ag front tires larger than 8-16.
- JD** The loader must be dismantled to service air filter.
- JE** This kit fits models with power assist/drag link steering only.
- JF** Dealer will be responsible for mounting the Case/IH remote valve to the mounting brackets.
- JG** This kit requires hydraulic fitting kit # 50043792 when tractor is equipped with factory installed joystick and remote valve.
- JH** This kit will not fit low-profile models.
- JI** This kit will not fit narrow models.
- JJ** Front tire (center to center) tread width must be set at a minimum of 66 inches on FWA models with 13.6-24 tires.
- JK** Tires must be dished to the narrow tread setting on models with R4 tires mounted on offset rims.
- JL** Must order front support kit #50044822 or front support #235328A2 from factory if tractor is not equipped with front support #235328A2 from factory.
- JM** This kit will fit models with factory joystick control. Dealer must provide hydraulic hoses and fittings to attach to the tractor's quick couplers.
- JN** Requires exhaust relocater kit #50042884 when mounting on M4700, M4900, M5400 and M5700 with vertical exhaust.
- KA** Front weights and weight bracket must be removed in order to mount this loader.
- KB** This kit fits with or without mid-mount mowers model #RCK60-30B & #RCK72-30B.
- KC** Requires exhaust relocater kit #50049164.
- KD** Requires exhaust relocater kit #50049164 on models with Tier I engines.
- KE** Requires exhaust relocater kit #50049166 on models with Tier II engines which have serial numbers that begin with "BN".
- KF** This kit will not fit directly to CNH factory-installed rear mounting brackets.  
To install this kit to tractors equipped with CNH rear brackets, the rear brackets must be removed.
- KG** Will not fit FWA models with turf tires larger than 24 x 8.50-14.
- KH** This kit will fit directly to CNH factory-installed rear mounting bracket.
- KI** Rear tire clearance (inside to inside) must be set at a minimum of 32 inches.
- KJ** Tractor must be equipped with Massey Ferguson rear bracket kit #7115807.
- KK** This kit will not fit models with Dyna-4 transmissions.
- KL** Models with battery located on right hand side require battery relocater kit #50051854.
- KM** Will not fit FWA models with Ag front tires larger than 300/70R20.
- LA** This kit will fit models with RC72-38 mid-mount mower.
- LB** This kit bolts directly to CNH rear bracket kit # 716454026
- LC** Exhaust relocater kit # 50065715 must be used when mounting ths tractor model.
- LD** This kit will not fit models with Tier III engines.
- JO** This kit will not fit two wheel drive models with 10.00-16 front and 18.4-30 rear tire combinations.
- JP** This kit fits models prior to serial #720875.
- JQ** Massey Ferguson 451 models with vertical exhaust on right hand side of tractor will require exhaust relocater kit #50046248.
- JS** This kit works with vertical exhaust.
- JT** This kit will offset the loader 1" to the right of center.
- JU** This kit will offset the loader 1" to the left of center.
- JV** Fits MC90, MC100 and MC115 tractors with transmisson serial #600494 and below that are equipped with McCormick Power Beyond Block and tractors with transmission serial #600495 and above that are equipped with the Bosch remote valve.
- JW** Fits MTX110, MTX125, and MTX140 tractors with transmisson serial #300645 and below that are equipped with McCormick Power Beyond Block and tractors with transmission serial #300646 and above that are equipped with the Bosch remote valve.
- JX** Fits MTX155 and MTX175 tractors with transmisson serial #400694 and below that are equipped with McCormick Power Beyond Block and tractors with transmission serial #400695 and above that are equipped with the Bosch remote valve.
- JY** This kit fits 990 models with selective control valve couplers on left side of tractor.
- JZ** This kit fits 990 models with selective control valve couplers on right side of tractor.
- KN** Will not fit FWA models with R4 industrial tires larger than 27 x 10.5-15.
- KO** Tractor must be equipped with CNH rear bracket kit #715687006.
- KP** Must order drop down plate kit #7115807 from factory for models below serial #P243055.
- KQ** Must order adapter kit #7115808 from factory for models with Dyna-4 transmissions.
- KR** Requires exhaust relocater kit #87571683 from factory.
- KS** Will not fit FWA models with Ag front tires larger than 7.50-14.
- KT** Will not fit FWA models with Ag front tires larger than 300/70R20.
- KU** Will not fit FWA models with Ag front tires.
- KV** Tractor must be equipped with CNH rear brackets #715788026 to install this kit.
- KW** Service access door must be removed from tractor to access service points with mounting kit attached. (Remove snap ring and lift door out of pivot.)
- KX** This kit will fit factory cab and flat deck models.
- KY** This kit will not fit straddle-mount models.
- KZ** This kit will not fit Ford/New Holland models equipped with telescoping ROPS.
- LE** This kit fits models with Tier II & III engines.
- LF** This mounting kit offsets the loader to the right to allow clearance between the loader and the exhaust when mounting or dismantling the loader.
- LG** Requires Exhaust Relocater Kit 50067057 when installing this mounting kit.
- LH** Requires Exhaust Relocater Kit 50067059 when installing this mounting kit.
- LI** This kit will not fit Elite Command Power Models
